## SUMMARY

Computer Science student with hands-on experience in JavaScript, React, Node.js, Express, OOP, and MySQL. Solved 240+ problems on LeetCode, strong hold on DSA and problem-solving skills. Built projects including an Airbnb Clone, Music Player, and Personal Portfolio using the MERN stack. Passionate about open-source contributions, Unique ui experience and applying technical knowledge to deliver efficient, creative solutions.

## INDEPENDENT PROJECTS

### [AirBnb Clone](#)

Dec 2024 - Feb 2025 Remote

- Built full-stack property rental platform with user authentication and booking system
- Implemented responsive design for Cross Platform Users
- Features: Secure login, property search, real-time booking, Property Location
- Tech Stack: JavaScript, Express.js, Node.js, EJS, Bootstrap

### [Beat Bridge](#)

Nov 2025 - Dec 2025 Remote

- Built a music player using pure JavaScript, HTML, and CSS (no frameworks).
- Added playlists, queue, search, list, shortcuts, and sleep timer.
- Stored user data with LocalStorage for retrieve latest used information

## SKILLS

- Programming Languages: JavaScript, TypeScript, C++/C
- Frontend Development: React.js, TailwindCSS
- Backend Development: Rest API, Node.js, Express.js
- Databases: MySQL, MongoDB
- CourseWork: Data Structure and Algorithm, Object Oriented Programming, Database Management System
- Tools: Git, GitHub, VS Code

## EDUCATION

### [Computer Science](#)

2024-2027

### [Chitkara University](#)

9.57/10

Coursework: Computer Network, Database Systems, Software Engineering, Discrete Math

## Achievements:

- CodeaThon 7.0 Winner
- Maintained consistent GitHub activity with over 900 commits ongoing
- Solved 225+ LeetCode problems with focus on easy/medium difficulty challenges
- Participated in 3+ hackathon in different statement based project
