

DIPENDRA SHARMA

Frontend Engineer | Looking for Frontend Intern Role

☎ +91 9780111228 | ✉ dipsharmadev@gmail.com | 🌐 github.com/tech-dipesh | 💼 linkedin.com/in/tech-dipesh

Summary

Frontend developer who builds fast, accessible experiences and leads teams to ship them. I've shipped apps with Lighthouse 100 SEO, 96 Best Practices, 88 Accessibility, and First Contentful Paint under half a second. I work with React, Next.js, and Redux Toolkit – not just to write code, but to collaborate with designers, product managers, and backend engineers to turn ideas into products. Led hackathon teams of 3-4, breaking down problems, delegating effectively, and shipping working prototypes within 24 hours. I believe great software is built by great teams – and I show up ready to communicate, adapt, and contribute. 250+ LeetCode, 400+ commits.

Technical Skills

Languages: JavaScript, TypeScript, C++, C, SQL

Frontend: React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, HTML5/CSS3

Performance & Tools: Code Splitting, Lazy Loading, Debouncing, Pagination, Lighthouse, ESLint, Prettier, Vite, Webpack, Web Vitals

API & Deployment: Axios, REST APIs, JWT, Vercel, Render, GitHub Actions, Git

Projects

Yeti Jobs | [GitHub](#) | [Live](#)

Jan 2026 – Apr 2026

- Production frontend for a job portal using React, JavaScript, Tailwind CSS. Consumes **50+ REST APIs** with custom Axios layer (AbortController for cancellation).
- **Role-based UI** (admin, recruiter, job seeker) with dynamic routing – and protected routes - served **50+ registered users**.
- Achieved **Lighthouse 90+** across SEO, Best Practices and Accessibility, **First Contentful Paint <0.5s** via code splitting (React.lazy), debounced search (300ms), pagination (10 items/page).
- Implemented global state with **Context API** for authentication and user roles, reducing prop drilling and improving maintainability.
- Integrated **Supabase storage** for resume/profile picture uploads with real-time preview, memory cleanup (createObjectURL/revokeObjectURL), and progress indicators.
- Built an **AI-powered resume analyser** (OpenAI/Grok) with live score (0–100) and ATS feedback – demonstrates complex UI state and API integration.
- Enforced code quality with ESLint, Prettier. Wrote integration tests for critical flows (Jest).
- **Tech: React, JavaScript, Context API, Tailwind CSS, Axios, Vercel, Supabase, OpenAI, Jest**

State Flow | [GitHub](#) | [Live](#)

Oct 2025 – Jan 2026

- Jira-inspired task manager with drag-drop boards, dark mode, keyboard shortcuts, fully responsive.
- Complex UI state with **React Context API** + localStorage persistence. Undo/redo for **50+ operations** without lag.
- Analytics dashboards (Chart.js) and **CSV/JSON export**.
- **Tech: Next.js, React.js, Context API, Tailwind CSS, DnD Kit, Chart.js, localStorage**

Achievements

- Selected for **GirlScript Summer of Code 2026** – national open-source programme.
- Winner of **CodeaThon 7.0** (university hackathon, cash prize).
- Solved **250+ DSA problems** on LeetCode.
- Active open-source: **20+ GitHub repos, 400+ commits**.
- **CEED Member** – Entrepreneurship programme, Chitkara University.

Certifications

- **AWS Educate Introduction to Cloud 101** – foundational cloud knowledge.

Education

Chitkara University

Aug 2024 – Expected 2027

Bachelor of Computer Applications (BCA)

Himachal Pradesh, India

– CGPA: 9.44

– Coursework: DSA, Operating Systems, DBMS, Software Engineering, Web Performance
