EDUCATION

Bachelor Of Computer Applications Chitkara University

August 2024 - 2027 (Expected) | CGPA: 9.44

Coursework: Authentication, REST APIs, Database Indexing, Backend Architecture

PROJECTS

Yeti Jobs • [Live](#) | [Github](#) Jan 2026 - Mar 2026

- Built scalable job portal using PERN stack with 50+ REST APIs and modular backend architecture
- Implemented role-based access control, securing admin/recruiter workflows and reducing unauthorized access risks with JWT authentication and multi-layer validation
- Optimized job search performance by implementing PostgreSQL composite indexing, eliminating sequential scans and reducing filtered query response time by ~30%
- Integrated Supabase for resume uploads and implemented an AI-powered resume analyser (scoring out of 100 with feedback) to improve ATS optimisation, deployed via Docker, Vercel, and Render.
- Designed 99% recent uptime hiring systems with optimized database connection pooling.

Tech Stack: PostgreSQL, Node.js, Express, React, Tailwind CSS, Docker, JWT

State Flow • [Live](#) | [Github](#) Oct 2025 - Jan 2026

- Built a Jira-like client side task manager with boards, lists, and drag-drop functionality with responsive UI, dark mode, and keyboard shortcuts
- Managed state using React Context across multiple components with persistence, implementing undo/redo features.
- Added data visualization using charts and export support for CSV and JSON formats

Tech Stack: React, JavaScript, React Router, Tailwind CSS, DnD Kit, Chart.js

TECHNICAL SKILLS

Languages | JavaScript, C/C++, TypeScript, SQL

Frameworks | React.js, Node.js, Express.js, Tailwindcss, Redux

Databases | PostgreSQL, MySQL, MongoDB, Supabase

Tools & Devops | Git, Docker, Vercel, Neovim OpenAPI, Linux

ACHIEVEMENTS

- CodeaThon 7.0 Winner at University Level
- Active developer with 20+ repositories, 400+ GitHub commits, and consistent minor open-source contributions.
- Solved 250+ DSA problems on LeetCode
- CEED Member (Entrepreneurship Program) – Chitkara University
